Numb. 141.

THE South-Carolina Gazette.

Containing the freſheſt Advices Foreign and Domeſtick.

From Saturday, OCTOBER 2, to Saturday, OCTOBER 9, 1736.

LONDON, July 12.

THE Ship London, Capt. Guy, belonging to ſome publick ſpirited Gentlemen of this City, is arrived in the River with ſeven Whales from Greenland: And it's ſaid another Ship which went hence on that Account, commanded by Capt. Craycroft, had caught two Whales when Capt Guy came. 'Tis hoped this Succeſs will encourage others to to imbark in this Trade, which is of ſo much Advantage the Nation.

Yeſterday an Expreſs arrived here from Portugal, which, 'tis ſaid, brings the Confirmation of the Siege of Nova Colonia by the Spaniards.

The Wale Fiſhery in general has proved very ſucceſsful this Year, for by the lateſt Accounts, 130 Dutch Ships had caught 600 Whales.

The Genoeſe have applied to moſt of the Foreign Powers praying they would forbid their ſubjects holding any Correſpondence with the Rebels, but to very little Purpoſe.

On Wedneſday laſt Mr George Sprigmore, a Bricklayer on Saffron Hill, ſwam croſs the Thames from Hungerford ſtairs to the Old Barge Houſe with his Hands tied behind him, and his Legs cloſe together, for a Wager of a Guinea, which he won with Eaſe, to the Surpriſe of every body. This is the ſame Perſon who ſome Days ago ſwam croſs the Thames, with his Hands only tied, and his Cloaths on, for a Crown, which he performed with Eaſe.

The Bruſh which the Corſicans received from the Garriſon of Algaiola appears more conſiderable than was at firſt repreſented, Numbers of them having been killed and wounded, their Cannon and Baggage taken, and the Corn which they heaped up there reduced to Aſhes. This however does not very much mend the Affairs of the Genoeſe, ſince the Governor Rivarole makes poor Mouths to the Republick, and complains of his being not duly ſupplied with Men and Money, and Arms. As for the Lord Theodore, it does not appear that he has received the Succours he boaſted of, but the Reaſon ſeems to be, becauſe he can do without them. Having ſufficiently gained the Confidence and Eſteem of his new Subjects, he now makes it his Buſineſs to extend his Fame and Credit abroad; and for this Purpoſe has wrote to the Lady of the Steward of the Archduchess Maria Magdalen, acquainting her with being choſen King of Corſica; and deſiring ſhe ſhould uſe her Intereſt for procuring the neceſſary Paſſports for a Miniſter whom he intends to ſend with a publick Character to the Emperor.

The River Oder in Germany, ſwelled by the heavy Rains, has lately overflowed the Country round it to ſuch a Pitch, that in a great many Places it appeared like a Sea. Several of the Inhabitants of Breſlau, the Capital of Sileſia, had no other Way to ſave their Lives in this unhappy Conjuncture, but to climb up the Tops of the Houſes; from whence they were taken down in Boats; Numbers of dead Bodies, and Children in their Cradles, were ſeen floating on the Surface of this Deluge; and the Damages occaſioned by it is ſcarce reparable.

The Duke of Lorain having acquainted the States of Hungary, that the Emperor would inſiſt on no more than the Tax which they themſelves offered to pay: They could not forbear crying out in the Exceſs of their Joy, Long live the King of Hungary.

The Inhabitants of the Territory of Calenzana in Corſica having lately met to conſult whoſe Sovereignty was ſafeſt to acknowledge in the preſent hard Dilemma, they choſe to ſubmit to King Theodore, rather than expoſe their Country to Plunder, and themſelves to certain Death, as was threatened in caſe they ſided with the Genoeſe.

By Capt Curling, who arrived here on Monday laſt, in 8 Weeks from London, we have the following freſh Advices.

LISBON, June 10.

An Advice Ship is arrived here from the Bay of All Saints in South America, with News, that the Spaniards have committed great Hoſtilities againſt the Portugueſe there; that the Governor for the King of Spain at Buenos Ayres had advanced with 1000 Regular Troops, and A great Number of Indians, up to the new Portugueſe Colony, or Iſland of the Holy Sacrament; that he had formed the Siege of that Place the 2nd of December laſt, and begun to batter the Place in Breach; but the Fort being of Stone and regularly fortified, and the Governor, Garriſon, and Inhabitants, behaving very bravely, it was hoped it would hold out until the Arrival of four or five Men of War ſent to them from Rio de Janeiro with 2000 Land Forces, and ſeveral other Troops marching to the Aſſiſtance from different Parts of Brazil. It is feared that this News will retard the Accommodation of the Difference between this Court and that of Madrid. The King has given Notice of theſe Hoſtilities to the Miniſters of the Mediating Powers; and we continue to receive from England and Holland a great Quantity of Arms and other warlike Stores for his Majeſty's Troops, which by the laſt Liſt made them to the Amount of 22,000 effective Men.

Cadiz, June 26. The Troubles which continue to reign in the Empire of Morocco, not having permitted Capt. Lynſlager to execute the Commiſſion with Succeſs with which he was charged by the States General of the United Provinces, he arrived here the 21ſt Inſtant from Sallee. Upon that Occaſion we have the following Account of the Affairs of Morocco: Muley Abdallah's Party has had the Addreſs to become ſuperior to that of Muley-Ali's; and the former of thoſe Princes forcibly took out of Sanctuary Baſhaw Selim Tequelly, who was General of the Blacks of Muley Ali's Party. The Baſhaw's four Sons were likewiſe ſeized at the ſame time, with ſeveral other Perſons who were attach'd to his Intereſt, and they were all conducted to Sallee under a ſtrong Guard. Muley Abdallah came there a few Days after, and the 10th Inſtant, ordered the Baſhaw and three of his Friends to be brought before him; he then commanded ſtrong Cords to be twiſted about their Bodies at certain Diſtances, in order to ſmell

swell their Flesh, and then had the inhuman Pleasure of killing them himself with Spears. Their Bodies were afterwards dragged out of the Town, and thrown into the Lays Stalls, that every Body might be witness of their Punishment. The Bashaw's four Sons were present at their Father's Execution, and threaten'd with a more cruel Treatment, if they would not discover where he had hid his Treasure; after which they were carried back to Prison. The next Day Muley Abdallah left Salee very early in the Morning, to return to Mequinez; and as he was leaving the Town he shot six Persons, whose Fidelity he suspected: This he did before a Multitude of Spectators who had got together to see him go away; and there is not a Day which this savage Emperor does not signalize by some Cruelty or other.

LONDON, July 20.

On Thursday her Majesty in Council, was pleased to order, that the Parliament which stands prorogued to Thursday the 29th Instant, should be further prorogued to Thursday the 14th of October next.

On Saturday the Proclamation was publish'd, offering a Reward of 200 l. to any Person or Persons who should discover the Author, Printer or Publisher of the Libel dispersed on Wednesday last in Westminster Hall.

They write from Vienna, that besides the Camp to be formed in Hungary, there is another to be in Transilvania to consist of Lanthieri's, Lobkowitz's, Conani's, Chavirai's and Olonna's Regiments of Horse, with Wada's Regiment of Dragoons; the Whole to be commanded by Count Francis Wallis. The Imperial Court has received Advice, that the Vagabonds of Hungary and the Rebels of Croatia, whose Number was encreased to about 7000 and who assembled in the District of Temeswaer, have been attack'd by the Regular Troops; that a considerable Number of them have been killed, and a great many taken Prisoners. To these Advices our Correspondent adds, that the 11th Instant an Express arrived there from Petersbourg, charged with Dispatches, declaring, that the Russian Court is ready to come to an Accommodation with the Porte, provided that the Grand Signor will give them reasonable Satisfaction for the Damages and Injuries which Russia has sustained from the Turks; since which a Courier had been dispatched to M. Dahlman the Emperor's Minister at Constantinople, with Orders to do every thing in his Power, for preventing if possible, the Continuation of this War.

Letters from Petersbourg of the 6th Inst. say, they have received Advice from the Camp before Asoph, that one of the Russian Bombs having fallen into the principal Powder Magazine of the Town, it instantly blew up with a prodigious Noise, putting not only the Inhabitants but the Garrison into the utmost Confusion and Consternation; and that the Veldt Marshal Count Lasci pushes on his Approaches with great Success. Thamas Kouli Kan has sent an Envoy Extraordinary to the Court of Petersbourg, to notify his Elevation to the Throne of Persia.

From Constantinople they write, that the Russians have lost a great many Men before Asoph, that the Garrison defends itself with great Vigour, and is able to hold out three Months longer; but this we look upon to be a Gasconade, the Turks having heard nothing of the Misfortune of the Powder Magazine. The Letters add, that Bashaw Bonneval is declared General of the Artillery of the Turkish Army designed against Russia.

The Right Hon. the Earl of Kinoule, is appointed Governor of Jamaica, in the room of Governor Cunningham deceased.

Extract of a Letter from Leghorn, *dated July* 7.

Baron de Neuhoff has settled several Persons here to take Care of the Affairs relating to Corsica, and to receive and dispatch away such Vessels as either come from that Island, or are to sail to it. Those Persons take upon themselves the Title of *Agents to his Majesty the King of Corsica, Theodore* I. Some Days ago a French Bark arrived here, with Ammunition and Provisions, and having on board a Trunk sealed up and directed to the Baron de Neuhoff; the Master of the Bark went immediately to one of the Agents for Corsica, who gave him a Pass; after which he set sail for that Island. As he carries French Colours, he is in no Danger of being either insulted or stopp'd by the Genoese Ships. Our last Advices from Bastia say, they have received a Reinforcement of 500 Swiss; and that they expected a further Succour from Genoa of 4000 Men.

Whitehall Evening Post, July 24.

His Majesty has been pleased to appoint Brigadier-General *Anstruther*, Deputy-Governor of *Port Mahon*, to be Governor of *South-Carolina*, in the room of Governor *Johnson* deceased.

Also to appoint Brigadier-General *Cope* to be Deputy-Governor of *Port Mahon*.

July 27. On the 7th Instant the Court of Petersburg received an Express from the Count de Munich, with Advice, that on the 16th of last Month he had made himself Master of Koslow in the Crimea, without Resistance, the Turkish Garrison abandoning the Place on his Approach and embarking on board 30 Transports, sailed for Constantinople. The City is very well situated for Commerce, and drives a great Trade, having a Port on the Black Sea, whence they can sail to Constantinople in 4 or 5 Days. There were found in that Place 20 Pieces of Cannon, and so large a Quantity of Bombs, that the Russians will be supplied for a long time, besides great Quantities of rich Merchandizes, such as Gold, Pearls, Silks, Stuffs, &c. which the Armenians and Turks residing in the City, and who also retired, left behind them.

Count Munich's Army having stay'd 3 or 4 Days at Koslow, as well to refresh themselves as to gather Provisions, of which there is great Plenty, continued their March the 21st of June for Baccieseray, the Capital of Crimea. The Express also brings Advice, that Dgianum Coggia, Captain-Bashaw or Admiral of the Turks, having lost all Hopes of being able to succour Asoph, had sailed with his Squadron to Cassa, and thrown 3000 Men into that City.

By another Express arrived here the same Day we learn, that Lieutenant General Leontiew, who had been detached from Precop towards the Dnieper had, by Capitulation made himself Master of the Fortress of Kimbourn, situated on this side the River, opposite Oczakow, and in which was a Turkish Garrison of 2000 Men; That this General had found 20 Pieces of Brass Cannon, 30,000 Sheep, and 3000 Horses in the Place; and that he had sent the Garrison to Oczakow, having detained a few Officers as Hostages till the Turks had sent him back 250 Russian Prisoners, which they had taken before his Arrival. The Acquisition of this Place is of so much the more Importance, as that the Army has thereby secured the Passage of the Dnieper, as well as all the Country on the East of that River.

Extract of a Letter from Petersbourg, *July* 13.

M. de Lasci, Lieutenant Colonel and Adjutant-General to the Veldt Marshal de Lasci, arrived here this Morning with the agreeable News that the City of Asoph had surrendered the 18th Instant: That the same Day our Troops had taken Possession of the Crownwork, and that the Turkish Garrison was to evacuate the Place the next Day.

The Grand Vizier's Army, which is advancing to Bender, consists of 100,000 Men. Sir Everard Falkener, the British Minister, as likewise, those of the Emperor and Holland, follow the Army. The Russian Minister is treated by the Turks with the same Politeness as is usual amongst Christian Princes to the Ministers of the Powers they declare War against. He has a Guard of 200 Janissaries to conduct him to the Frontiers of Russia.

Frederica in *Georgia, Sept.* 20.

Don Antonio de Arredondo the Spanish Commissary demanded of Mr. *Oglethorpe* that the English should evacuate all they stood possest of as far as St. *Helena's* Sound, the Spaniards having formerly had Forts there. Mr. *Oglethorpe* demanded of him that the Spaniards should evacuate as far as the 29th Degree of North Latitude, conformable to King *Charles* the 2ds Charter, the English having formerly had possession as far as that Latitude, Sir *Francis Drake* having by Queen *Elizabeth's* order taken *Augustine*. After many conferences Don *Antonio de Arredondo* agreed that on the withdrawing the Garrison from the Island St. *George* the said Island should remain unpossest by either Party till Advices should arrive from *Europe*. And that no hostilities should be committed on either side till the determination of the English and Spanish Courts should be known, and all other Claims be deferred till their determination.

Don

Don *Antonio* and the other Spaniſh Gentlemen with him took leave of Mr. *Oglethorpe*, making great acknowledgements to him for the Civilities they had received, and ſailed from *Jekyl* Sound in the Spaniſh Veſſel on the 3d of this Month. After which Mr *Oglethorpe* went up the River *Alatamaha* ſeveral Days Journey, he returned by the *Darien*, and marked out the Fortifications for that place, and ordered a Church, School houſe, and Guard-houſe to be built. Whilſt he was there Capt. *Mac pherſon* arrived with a drove of Cattle which he had brought all the Way over Land from *South Carolina*.

This has cauſed joy in all our Settlements to find the Communication for Cattle by Land opened, whereby theſe Southern Settlements will be ſupplied with Milk and freſh Proviſions, of which they have hitherto ſtood in great need.
